

SCAFFOLDING NET with or without eyelets

Construction scaffolding net consists of scaffold wind/sun block and vertical debris nets can wrap a building in safety, protecting workers, pedestrians, and nearby structures from harm of falling material.

Uses:

- Construction & Jobsite Protection
- Contains Debris, Dust And Other Jobsite Materials
- Worker & Pedestrian Safety
- Scaffold Netting & Enclosure
- Industrial, Plant & Refinery Maintenance
- Short-Term Guardrail

Material:

- Knitted High Density Polyethylene (HDPE)

Features:

- Economical & Cost effective
- Lightweight, UV-Treated&Long Lasting

Technical data:

Product code	EAN code	Eyelets	Roll width	Fabric weight sq/m	Length	Shading	Color
SN70	4751023400297	No	3.0 m	70 g	50 m	60%	Yellow
SN90	4751006566514	No	3.0 m	90 g	50 m	60%	Yellow
SN90-E	4751023400280	Yes	3.0 m	90 g	50 m	60%	Yellow

Can be used together with:

Plugs for scaffolding hooks HRK and eye bolts HR:
